

[Adani Group](#) is one of India's largest business conglomerates, with a diverse range of businesses across various sectors such as ports, logistics, agribusiness, real estate, and renewable energy. Vizag Tech Park is a subsidiary of Adani Group, focused on the development of technology parks and data centers. With the incorporation of Vizag Tech Park Ltd (VTPL), the company aims to establish a new 100 MW data center in Kapuluppada, Visakhapatnam, Andhra Pradesh. This project involves setting up a 10 MW capacity unit in the first phase and a 200 MW data park in the future. The total estimated cost for the project is Rs. 72100 million and the State government has already granted permission for its establishment. This new data center will play a crucial role in supporting the growing demand for data storage and processing in India and provide a state-of-the-art facility for companies looking to establish their digital presence in the region. The Adani Group's foray into the data center space reflects the company's commitment to investing in infrastructure and technology to drive economic growth in India.
