

Allied Digital Services Limited has been given a Letter of Intent (LoI) for the Solapur Smart City Project. The total contract value is around Rs. 49 billion.

The project is anticipated to take 9 months to complete, and it will require 36 months for operations and maintenance.

The scope of work for Allied Digital includes installing a city communication network, a state-of-the-art command control centre, a city-wide surveillance system, intelligent traffic management systems, including an automatic number plate recognition system and a red-light violation detection system, an adaptive traffic management system, a public address system, emergency panic buttons, and a data centre.

Commenting on the win Allied Digital CMD – Nitin Shah, said, “This win furthers Allied Digital’s market share in the Smart City space in India and adds one more feather in our cap. We are excited to be associated with Solapur City Development Corporation Limited (SCDCL) and help provide smart solutions to the city bringing huge value to the citizens of Solapur. We take pride in providing such solutions to our client which directly impacts so many lives”.
