

[ArcelorMittal Nippon Steel India](#) (AM/NS India), a leading steel manufacturer in India, is planning to set up a new sewage treatment plant (STP) in VPO – Rohad, Tehsil – Bahadurgarh, Distt – Jhajjar, Haryana. The project involves the establishment of an STP with a capacity of 10 KLD (kiloliters per day) to treat the sewage generated by the company's operations. The estimated cost of the project is Rs. 1253.9 million, which represents a significant investment for the company. The project is expected to help reduce the environmental impact of the company's operations by treating the sewage generated by the plant before it is discharged into the environment. As of March 2023, the company has received consent from the state pollution control authorities to establish the project, indicating that it is committed to meeting regulatory requirements and operating in an environmentally sustainable manner.
