

Ather Energy, an electric two-wheeler manufacturer, announced a partnership with Bharat FIH, a Foxconn Technology Group firm, to design and manufacture critical components for the former's scooters.

The collaboration will improve the production environment in order to satisfy the high demand for Ather Energy's main products, the Ather 450X and 450 Plus.

Bharat FIH will provide a variety of manufacturing services, including printed circuit board (PCB) assemblies for battery management systems, dashboard assembly, peripheral controlling units, and drive control modules, as part of this cooperation.
