

negotiations with various state governments to establish a new production plant in the nation.

The corporation is claimed to be in negotiations with officials from various state governments, including those from Andhra Pradesh, Maharashtra, Gujarat, Telangana, and Karnataka, about establishing a new manufacturing factory with a capacity of roughly 15 lakh units per year.

The corporation is in the last stages of discussions, according to the sources, and is expected to finalise the location within the next month.

As per the sources, the company, which sells two electric scooters – the 450X and the 450 Plus – is looking at around 100 acres of land parcel to build its third facility in the country.
