

Croda India Company, a subsidiary of Croda International, is planning to establish a new consumer care products manufacturing unit in Dahej, Bharuch, Gujarat. The project includes setting up a new facility to increase its capacity to meet the growing demand for its Consumer Care products in the region. The estimated cost of the project is Rs.5000 million. As of March 2023, the company has performed a ground breaking ceremony for the project, indicating the commencement of construction activities. Croda India Company is a subsidiary of Croda International Plc, a British speciality chemicals company that produces a wide range of chemicals and ingredients for various industries such as personal care, healthcare, and industrial applications. Croda India has been operating in India for over 25 years and has manufacturing facilities located in various parts of the country. The company offers innovative and sustainable solutions that cater to the diverse needs of its customers.
