

After the [Airports Authority of India](#) (AAI) opened technical proposals, four construction firms submitted bids for the new integrated terminal building at Imphal International Airport in Manipur.

The project entails the construction of a new terminal building with a floor area of 28,125 square metres that can handle 1200 peak-hour passengers (200 international and 1000 domestic), an apron with 8 parking bays for A321 type narrow-body aircraft, two 144m x 23m link runways, and an [air](#) traffic control tower.

In February 2022, AAI issued a tender for building work with a budget of Rs. 331.80 crore and a completion timeframe of 730 days (2 years).
