

GreenShift Initiatives Private Limited has opened another fast EV charging centre near Chembur, Mumbai, after paving the way to electrification with accessible fast EV charger installations in Airoli, Navi Mumbai.

GreenShift, which launched in 2019, was one of the first companies that specialise in quick EV charging for residential and commercial condominiums. It intends to build multi-level charging centres in and around Mumbai's residential enclaves, business hotspots, IT parks, and other densely populated locations.

By 2022, the company expects to expand its reach across new markets with rapid public charging stations, including Mumbai, Pune, Hyderabad, Bengaluru, Delhi NCR, and Lucknow.
