

The building and commissioning of a 60 Megawatt (AC) solar PV project at the villages of Samraj and Ashukhedi in Indore, Madhya Pradesh, has been put out to bid by the Indore Municipal Corporation.

The design, engineering, procurement, construction, testing, and commissioning of a 60 MW (AC) solar PV project that includes interconnecting transmission lines and 132 kV power evacuation equipment are all included in the scope of work.

The project should cost around Rs 287 crore, and it should take 15 months to complete. During ten years following the date of operational acceptance, the plant must undergo thorough operation and maintenance (O&M).
