

Kovalam hosted the “Bio Connect Kerala 2023” international industrial conclave.

To advance the state’s life science industry, the conference is being sponsored by the Kerala State Industrial Development Corporation (KSIDC).

P Rajeev, the minister of industries, inaugurated the conclave. The conference will include topics such as skill development, disruptive technology workshops, and industry-academia partnerships to support upcoming programmes.

The conclave’s goals are to draw top investors to the state, strengthen industry ties to foster collaboration opportunities, highlight infrastructure and initiatives that can benefit from Kerala’s industrial policy incentives, foster industry/academia networking, and provide opportunities for investment in product development and scale-up.

The industrial conclave is a unique opportunity to understand the state’s policy and regulatory environment, and the vast existing and emerging business opportunities across sectors.
