

GULSHAN

When Gulshan Polyols Ltd. conducted a trial run for the production of ethanol from its plant with a 500 KLPD capacity at Boregaon, District Chhindwara, Madhya Pradesh, it successfully accomplished a milestone and its grain-based ethanol passed all quality control parameters. After a few procedures and compliances with oil marketing companies are finished, which could take 45 days, commercial production of ethanol will begin. A commercial invoice will then be issued.

Gulshan Polyols Ltd is India's leading manufacturers of Ethanol/Bio-fuel, Grain and Mineral based specialty products with three decades of experience.
