

S.O.G. Electricals, an established player in the electrical equipment manufacturing industry, is planning to expand their operations by setting up a new electrical panels and power coating manufacturing unit in one of the industrial areas in Dharwad, Karnataka – Gamanagatti, Mummigatti or Kotur Belur. The project entails the use of 1 acre of land and is estimated to cost Rs. 153 million. The company plans to utilize the latest technology and equipment to manufacture high-quality electrical panels and power coating products. The proposed project has been approved by the Karnataka State Level Single Window Clearance Committee as of January 2023, indicating the government's support for the project and further strengthening the company's confidence in the venture. This new facility will not only provide employment opportunities for the local community but also contribute to the growth of the local economy.
