

[South Eastern Coalfields](#), a leading coal mining company, has announced its plans to expand its Dipka coal mining project located in Tehsil-Katghora, Korba, Chhattisgarh. The proposed project aims to increase the current capacity of the Dipka coal mining operation from 25 Million Tonne/Annum to 37.5 Million Tonne/Annum, thereby enabling the company to meet the growing demand for coal in various sectors. The project is expected to involve significant investments in infrastructure, equipment, and manpower. As of March 2023, South Eastern Coalfields has received consent from the state pollution control authorities to establish the project. The expansion of the Dipka coal mining project is expected to create numerous job opportunities in the region and contribute to the economic growth of the state. The company's decision to expand its operations in Chhattisgarh is a testament to the state's business-friendly policies and its potential to attract investments from leading companies in various industries. With this expansion, South Eastern Coalfields is poised to strengthen its position as a leading player in the coal mining industry, catering to the growing demand for coal in both domestic and international markets.
