

Tata Power Renewables Limited (TPREL) announced plans to build a 3.125 MW solar project in Maharashtra's Himayatnagar.

The facility is anticipated to produce 6.15 metric tonnes less CO₂ and produce around 7.5 million units (MU) of clean energy annually. By October 2023, the project will be officially launched.

According to the statement, the Mumbai residential society will receive the power generated. "We announce partnership with Vivarea Condominium, Mumbai to provide clean power for residential purposes through our captive solar plant," Shivram Bikkina, Chief – Rooftop, Tata Power Renewable Energy Limited.
