

Tata Power Solar Systems has completed a 450 MW DC solar facility for Brookfield Renewable India, according to Tata Power.

The installation included the setup of over 800,000 modules and was accomplished in a record-breaking 7 months. The project will generate over 800 GWh of renewable energy per year and assist to prevent up to 600,000 tonnes of CO2 emissions each year.

Tata Power Solar is a wholly-owned subsidiary of The Tata Power Company and one of India's leading integrated solar firms.

We are thrilled to have finished the solar facility for Brookfield Renewables India in Rajasthan in record time, said Dr. Praveer Sinha, CEO and MD of Tata Power.
