

The fifth-largest cement group in terms of capacity in India and one of the top companies in East India, Nuvoco Vistas Corp. Ltd., has announced the opening of its new Ready-Mix Concrete (RMX) plant in Vizag, Andhra Pradesh.

The factory, which can produce 60 cubic metres of concrete per hour, will serve local construction projects by offering a consistent supply of high-quality concrete while also enhancing productivity, cutting costs, and fostering sustainability.

With the opening of its second Ready-Mix Concrete (RMX) plant in Vizag, Andhra Pradesh, Nuvoco demonstrates its continued commitment to the infrastructure industry.

Vizag, a rapidly developing city, presents immense opportunities in the infrastructure sector, including projects such as the Greenfield Airport at Bhogapuram, undertaken by the GVMC. Moreover, its proximity to ports and its vibrant industrial belt makes it an attractive market for Nuvoco.

The plant's strategic location underscores its customer-centric approach, ensuring prompt and efficient delivery within a maximum travel time of four hours, thereby preventing concrete solidification in transit.
